

FABBRICA CERAMICHE GIUSEPPE MAZZOTTI

1903

The **Giuseppe Mazzotti** pottery, an artisan firm that produces its products completely by hand, was founded in **1903 in Albisola** (Italy) and since then, with the same initial passion of its founder, continues to produce prestigious ceramics.

The Mazzotti pottery complex at the mouth of the River Sansobbia in Albisola in a photo from 1945.

Albisola is a charming village in Liguria overlooking the Mediterranean Sea and the Atelier is just a few steps from the beach. From the beginning the Atelier intertwined its experiences with twentieth century artistic and cultural movements and went on to become a reference point for ceramics production.

In the Thirties **Filippo Tommaso Marinetti** and Futurist artists such as: Fillia, Fortunato Depero, Nicolaj Diulgheroff, Nino Strada, Bruno Munari, Alf Gaudenzi, Mario Anselmo, together with the Mazzotti family, made kiln ceramics that were an expression of the **Futurist Movement**.

Filippo Tommaso Marinetti on the beach at Albisola in a photo from the Thirties.

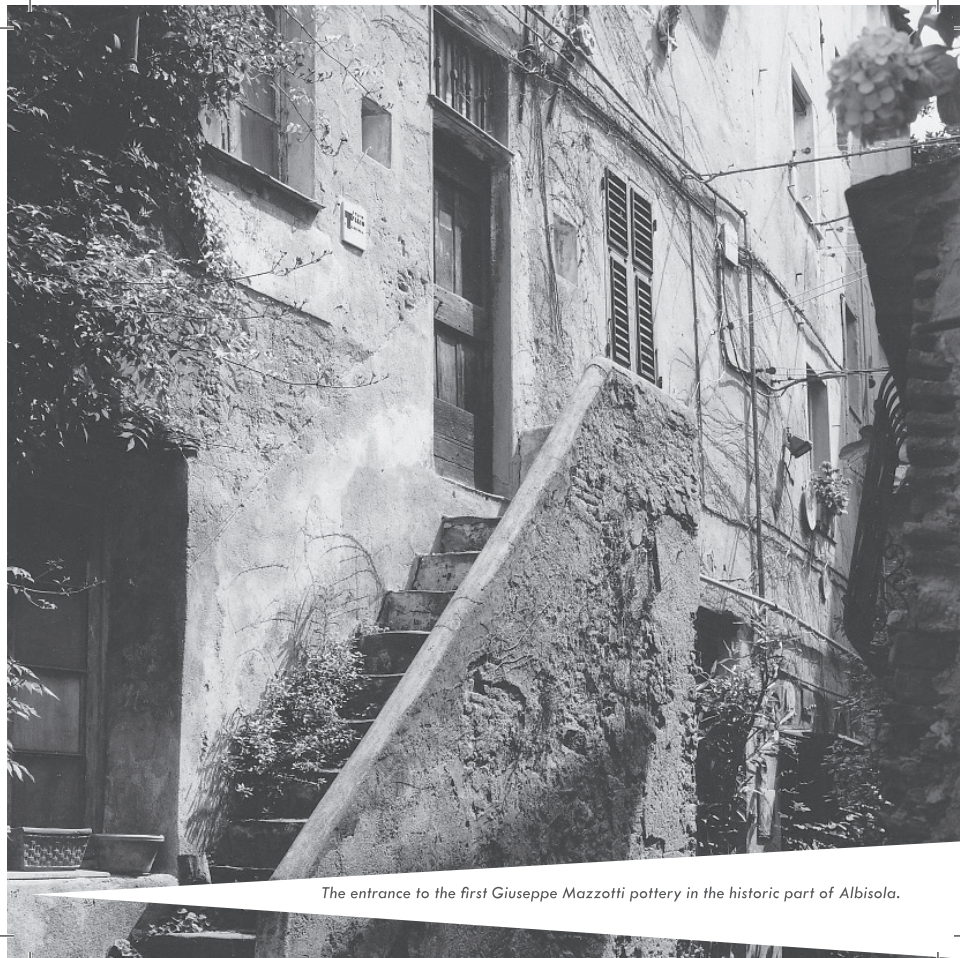

These were precious works of art which are still made today by **Tullio Mazzotti**, a fourth generation member of the Mazzotti family of potters, using the same designs, the same materials and the same manual working procedures.

During the second half of the twentieth century the pottery continued its relationship with the art world welcoming to its laboratories **Lucio Fontana, Asger Jorn, Sassu, Enrico Baj, Sergio Dangelo, Corneille, Sebastian Matta** thus making the relationship between Ceramics and Art inseparable.

The interior of the Giuseppe Mazzotti pottery in 1936; in the photograph, other than pottery workers, we see Giuseppe Basuin Mazzotti (pottery founder) and Lucio Fontana making a large ceramic crocodile.

The entrance to the first Giuseppe Mazzotti pottery in the historic part of Albisola.

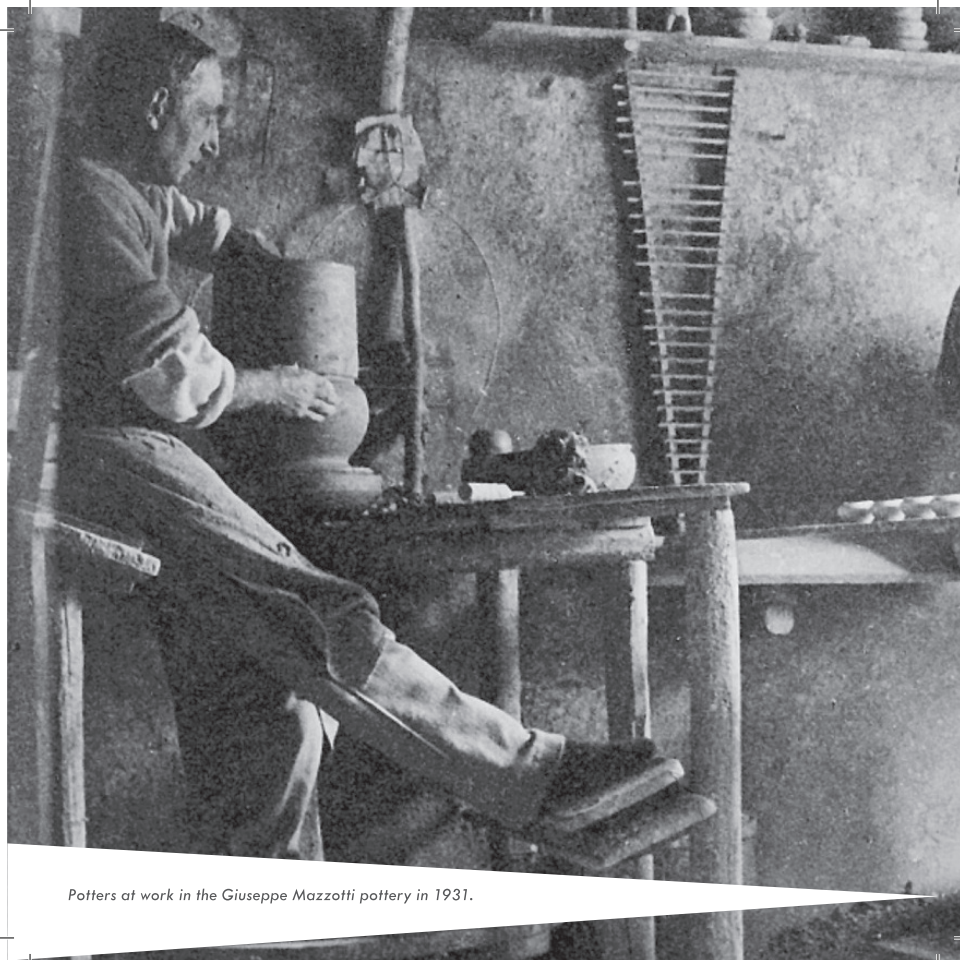

Today the **Giuseppe Mazzotti pottery** is a cultural reference point both in Italy and worldwide for the production of limited edition designs and hand-crafted ceramics made for clients on a commission basis.
